

May 31<sup>st</sup>, 2019

We are proud to announce that CAPSiDE will become an NTT Communications Company, part of the NTT Group, one of the world's largest Information and Communications Technology (ICT) companies with revenues in excess of \$100 billion. On May 30th, 2019, NTT Communications entered into a definitive agreement to acquire CAPSiDE.

Joining NTT Communications will give CAPSiDE the ability to leverage NTT Communications' global presence and resources to accelerate worldwide adoption of our comprehensive hyperscale cloud managed services, highly-specialized cloud transformation consulting services and cloud enablement.

NTT Communications has subsidiaries in over 110 cities, connecting networks in more than 190 countries and regions, and investing over \$2.5Bn in R+D. By joining both NTT Communications and CAPSiDE capabilities and knowledge, together with the strong financial stability of NTT Group, will provide our customers with outstanding end-to-end managed services for all their ICT needs, helping them to transform their organizations with unparalleled quality and global vision.

Upon completion of the acquisition, we will continue to operate as CAPSiDE, a standalone business unit with increased resources and capabilities. As a standalone business unit, our existing leadership and employees will remain committed to maintaining the high qualities of innovation, support, and service that you have come to expect.

By joining the NTT family, CAPSiDE expands its service offering to all its current clients with value-added datacentre, hybrid solutions and global communications services for complex enterprise environments and corporate end-to-end ICT professional services, at a global scale, for global customers, with seamless global management.

This is an exciting time for CAPSiDE, our clients, and partners. NTT shares our values of quality, innovation, and superior customer service. Our goal is to continue to build "CAPSiDE, an NTT Communications Company" into the best hyperscale cloud managed services company in the industry.

We look forward to our continued partnership and to taking CAPSiDE to the next level at a global scale backed by the support of NTT Group. We will share more information in the months to come.

We invite you to visit our press central website where we'll post the latest information about this operation (<https://www.capside.com/ntt-com-acquisiton-update>), and to follow us on our usual social media channels and blog:
