

# Overview and FAQs about the NTT Com acquisition of CAPSiDE

## Overview

NTT Communications Corporation (NTT Com), the ICT solutions and international communications business within the NTT Group (TYO:9432), and CAPSiDE S.L. (CAPSiDE), a European major provider of comprehensive hyperscale cloud managed services (headquartered in Barcelona, with offices in London and Madrid), announced today that NTT Com Managed Services (NTT Com's subsidiary), headquartered in Barcelona, Spain has completed its 100% acquisition of CAPSiDE.

Managed services are one of the most important strategic fields for NTT Com, a DX Enabler™ that helps customers to achieve digital transformations. NTT Com enhances the managed services' capability with CAPSiDE.

CAPSiDE specializes in integrated managed services, especially in Europe, for operations enabled with hyperscale cloud services.

CAPSiDE is a premier consulting partner of Amazon Web Services, Microsoft Azure and Google Cloud Platform.

## Frequently Asked Questions

### What's the goal of the acquisition?

CAPSiDE's goal is to continue to build "CAPSiDE, an NTT Company" into the best hyperscale cloud managed services company in the industry for global customers with complex needs. We aim to be the single source for ICT transformation for global customers, with seamless global management, and best-of-breed service quality.

Joining NTT will give CAPSiDE the ability to leverage NTT's global presence and resources to accelerate worldwide adoption of CAPSiDE's comprehensive public cloud managed services, highly-specialized cloud transformation consulting services and cloud enablement.

Through this acquisition, CAPSiDE is now able to expand its service offering to all its clients with value-added datacenter and global communications services for complex enterprise environments and corporate end-to-end ICT professional services, providing a comprehensive offering for the Hybrid cloud needs of global companies.

CAPSiDE's capabilities are very complementary to NTT's portfolio and solidify NTT's public cloud offerings, which are increasingly high in demand, at a global scale.

### I'm a CAPSiDE client, how does this acquisition affect me?

CAPSiDE completely maintains its independent operation, therefore this integration to the NTT Group does not affect the relationship between CAPSiDE and its current clients in any way.

CAPSiDE will keep its daily operation business as usual at all levels with its clients across Europe.

However, through this acquisition, CAPSiDE clients will benefit from having access to a wider offering, broader portfolio and global capabilities, which can help them to manage seamlessly more complex needs.

### I'm an NTT client, how does this acquisition affect me?

Due to CAPSiDE's inclusion to the NTT family, in an integrated portfolio approach facilitation, you will be able to take advantage of CAPSiDE's years of experience in complex public cloud migration projects, 24/7 operation of business critical cloud platforms for large companies, and the agile Cloud transformation consulting and enablement services.

### How does this operation affect CAPSiDE's cloud-automation products and IP?

CAPSiDE will keep its strategic bet to invest in the development of more and better cloud automation tools to complement our best-of-breed MSP offering that will continuously improve our clients' pace of innovation, the cloud governance challenges and accelerate their business agility while strengthening their systems and DevOps processes reliability. With the support from NTT group, CAPSiDE will now be able to accelerate on this area, so current customers will be able to see a higher pace of innovation on our tooling.

### What about my company data? Where will my data be managed?

All CAPSiDE clients information will remain securely managed through CAPSiDE's ISO-backed workflows and processes, with strict compliance of GDPR for European customers, as usual.

### Where can I find out more information about this operation?

For more information, please visit [CAPSiDE's acquisition site](#).

### Should CAPSiDE clients continue to contact their CAPSiDE sales representative?

Yes, clients should continue to rely on existing relationships. If you have any doubt about this operation, or if you want to talk about additional capabilities that may be of your interest, please feel free to contact your account manager at CAPSiDE, and we'll cover any potential missing detail.

### Where can I learn more about the NTT group?

NTT is a Fortune Global 100 corporation, with about \$100B in revenue and over 10,000 enterprise clients. NTT invests \$2.5B in R&D, led by 6,000 researchers, driving socially responsible innovation. With subsidiaries and offices in over 110 cities, connecting networks in more than 190 countries and powering data centers in over 20 regions, NTT Com is a leading provider of information and communications technology solutions.
